

Does your firm prequalify contractors for construction projects?

In today's business climate it is vital that construction firms mitigate risk. You can reduce risk exposure by improving how subs are found, selected, and qualified for projects.

Kal-Blue offers a prequal workshop that will educate you on how Project Document Manager - PDM automates the prequal process and turns a labor intensive paper procedure into an efficient electronic process.

Take the guess work out of the selecting competent subs.

- Learn how the McGraw Hill Construction Network - Dodge global directory and PDM work together to identify subs nationwide.
- Learn how PDM easily invites subs to prequalify for projects.
- Learn how subs submit prequalification information to your private online prequal system.
- Learn how PDM collects, manages, and reviews prequalification information across your firm.
- Learn how PDM interoperability combines prequal with invitation to bid for a completely integrated approach to bid management.

PDM is a sophisticated yet easy to use solution that solves the business issue of inviting, collecting, managing, and sharing prequalification information. No more posting static forms on your website that need to be manually filled out, faxed back, and managed by staff.

- PDM Prequal reduces exposure to risk.
- PDM Prequal will assure your owners you have a risk mitigation plan.
- PDM Prequal decreases the labor required to manage a prequalification process.
- PDM Prequal is specifically designed for construction by construction.
- PDM Prequal is affordable and easy to get started.
